A THOUSAND SEASONS PAST

**A Bristol Old Vic Young Company and
Travelling Light Youth Theatre co-production**

From out of the mists drifts a ghost ship with a thousand stories to tell. Crewed by characters who lived and died around the Bristol docks, she weighs anchor in her home port and the spirits of those long departed will briefly live again. Tragic teenagers, jilted lovers, cruel masters, the sad, the bad and the plain unlucky all have their tales to tell.

Bristol's historic Wapping Wharf area approaches a new phase of its life and, to celebrate its vibrant past, young performers from Bristol Old Vic Young Company, Travelling Light Youth Theatre and Hanham Woods Academy bring the waterfront site and its unique history to life with support from Umberslade, The Heritage Lottery Fund and Bristol Museums, Galleries and Archives.

A Thousand Seasons Past transports you back through the rich and haunting history of this fascinating area with intertwining tales told using choreographed ensemble movement and live music, all performed in a specially built open air auditorium.

Previously titled *Wapping Wharf Project*.
