*“Her favourite part of the day wasn’t the day. It was the night...”*

**Tonight three dynamic stargazers meet for the very first time. Each hails from different lands, eats strange and delicious things, speaks differently, moves differently, thinks differently. They have nothing in common. Well, almost nothing.**

**As night draws in what else is there to do but to sing, to dance and to tell stories? Their tales light up the night sky with stories of love, stories of loss. stories of kings; flickers of the travellers’ true pasts. Suddenly these strangers don’t seem so strange.**

**By sunrise their worlds have changed forever and the travellers unite for a new adventure, a new story which they must write together.**

**Travelling Light brings its inventive and fresh twist to a classic tale. Three Kings fuses storytelling, clowning, song and dance in a sparkling show to stimulate the senses and move the soul.**

*“A funny, heartwarming, beautiful piece”*

**The Independent, Cinderella**

“A truly exceptional piece of work - nothing short of perfection”

Whatsonstage, The Ugly Duckling

“It takes real skill and guts to produce work for children like this”

The Guardian, Cloudland
